

THIRD EYE EDITION

A life in words

First things first – I am under no illusion that you will – by any stretch of the imagination, admire this piece as original. The theme, as over-critical Junior is so fond of saying, with dripping sarcasm, I might add, has been ‘done to death’. But the beauty of it is that you are still at liberty to interpret any ‘done to death’ theme in your own way, and may be able to actually even come up with something interesting, even entertaining – though the last not in the box office sense of the term.
